Hi folks,

This really fantastic tool just crossed my desk.

<https://www.americansforthearts.org/SocialImpact> It is full of American data....and when you click a piece of the pie, it provides you with a brief paragraph and a click to learn more. Click that and there is info. On the upper right hand corner there is a data sheet. Click it and there is so much data along with case studies and examples.

Enjoy exploring. And by all means share or delete as you wish. And please excuse any cross-postings.

Regards,
