Enbridge Gas Inc. has applied to the Ontario Energy Board for the following approvals:

- **A System Expansion Surcharge of \$0.23 per m³, for all future “Community Expansion Projects” – i.e. projects that expand the natural gas system to provide gas service to a minimum of 50 first-time users. If approved, the surcharge would primarily apply to first-time small volume customers in the project area and for a period of up to 40 years. Larger volume customers would have the option to pay the surcharge or negotiate another method of contribution to the capital costs for the project.**
- **A Temporary Connection Surcharge of \$0.23 per m³ for all future smaller expansion projects – i.e. projects involving the extension of mains and related service attachments to fewer than 50 first-time users, as well as service lines to individual customers installed on pre-existing mains. If approved, the surcharge would apply to first-time small volume customers for a period of up to 20 years instead of paying up front for the capital costs of the connection. Larger volume customers would have the option to pay the surcharge or negotiate another method of contribution to the capital costs for the project.**
- **An Hourly Allocation Factor to allocate capital costs of future development projects to customers for the purposes of conducting economic feasibility analysis.**

Enbridge Gas Inc. is also proposing to make related changes to rate schedules and feasibility policies, necessary to harmonize the surcharges and provide consistency between the former Enbridge Gas Distribution Inc. and former Union Gas Limited rate zones.
