Subject: Fw: Oldcastle Residents vow to continue to fight cannabis facility

As a concerned citizen for future community growth, I ask the Mayor this question. Would town council then approve a cannabis facility near Tecumseh Vista school? It is zoned agricultural land and you stated council has no right to tell farmers what crop they can grow?

If the Mayor and council truly stand behind this statement, why are they now scrambling to amend the agricultural by-law. This by-law will not allow any form of greenhouse on agricultural lands. A farmer may not even put down any kind of plastic protecting his or her crop.

However it was ok back in December, I wonder what has changed ?
