The Town of Essex strongly supports the provision of more detailed information and data regarding the spread of Covid-19 which will allow municipalities and the public to make informed decisions on protecting their health.

In particular what is required is more granular information that allows the public to note positive cases by neighborhood not just at the Municipal level. To receive this more detailed information on a timelier and even daily basis if possible will better equip the public and their municipalities to evaluate health risks, identify potential hot zones and plan and use precious taxpayer/municipal resources more efficiently.

Yours truly,
