

Laura Moy

This letter is submitted to address my objection to the "Proposed Housekeeping Zoning By-Law Amendment " to be considered at the Council Meeting of Tuesday Sept 8 2020

My Objections are as follows:

1. As everyone knows, this by law is NOT about Greenhouses; the intent of this by law is to prohibit the growing of CANNABIS and the NUISANCE STINK that it produces yet it does not contain the word CANNABIS ONCE.
2. The by law does not prohibit growing CANNABIS in open fields in Hamlet Development Lands or in Future Urban Use Lands; Open grow Cannabis stinks just as badly as that grown in greenhouses . The by law should prohibit growing cannabis in open fields.
3. The bylaw EXCLUDES the Epione Cannabis Greenhouse currently under construction on the former Al Parr Farm, just west of the corner of Walker Rd and #3HWY on future development lands. This is blatant DISCRIMINATION against the residents of the Oldcastle Hamlet, the majority of whom live directly DOWNWIND We have noses toooh that's right Tecumseh doesn't care about the RESIDENTS of Oldcastle Hamlet(AKA 2nd class citizens of Tecumseh)..... Tecumseh cares only about the tax revenue from Oldcastle's RICH INDUSTRIAL ASSESSMENT which funds EVERYTHING in the North End of Tecumseh like.....buying a Golf Course, buying lakefront property, a new Town Hall Building, a New Fire Hall, a New Police Station ...etc
4. The Epione Cannabis greenhouse will preclude the surrounding HAMLET DEVELOPMENT LANDS from being developed RESIDENTIALLY.....
5. The time line associated with the Epione Land Purchase right through signing the building permit for the greenhouse, clearly indicates Tecumseh's intention to ram rod this project through to completion with no public notice or input..... a blatant abuse of proper procedure and good land use planning and a stick in the eye of the Oldcastle Hamlet Residents.
- 6.
