Background

This report provides information to Council related to the Town of Tecumseh water distribution system for the year 2020. Pursuant to Schedule 22 of the *Safe Drinking Water Act* (SDWA), O. Reg. 170/03, Annual Summary Reports must be prepared for the preceding calendar year and submitted to members of Council to disclose compliance status and provide pertinent water quantity and quality information.

Comments

Water Services Division must prepare two annual water reports as required by the Ministry of the Environment, Conservation and Parks (MECP): the MECP Annual Report and the municipal Annual Summary Report. These reports are appended to this Council report as Attachments 1 and 2. The format of these annual reports was established by the MECP and must include the following:

1. An overview of the required information in accordance with Schedule 22 of O. Reg. 170/03 under the SDWA.
2. A list of non-compliance issues.
3. Lead testing results.
4. An assessment of the water distribution system's capability regarding flows per cubic meter, monthly flow averages and daily averages.

The findings from the 2020 reporting year continue to demonstrate that the Town of Tecumseh meets all regulatory compliance requirements prescribed through applicable legislation.

Following Council's acceptance of the 2020 Annual Summary Reports, the Town is legislatively required to make the information contained within said reports available to the public. Accordingly, the 2020 Annual Summary Reports will be placed on the Town's website for public access.
