**Subject:** Extending the Trail

Hello,

I wanted to reach out to council to identify the support of my household towards the ganatchio trail extension. We just purchased a house in Tecumseh and one of the reasons we were hesitant to move here was lack of active transport.

Seeing this opportunity really excites us and in conversations with friends, family and neighbours we have not heard any negative feedback regarding the extension. Please consider how the town as a whole could benefit from this trail enhancement!

Our household greatly supports this endeavor and will be monitoring closely on how the council comes to a decision.

Thank you!  
Geoff
