As many of our residential streets are without sidewalks, staying to main roads is much safer. However, navigating Riverside Drive, crossing back and forth on such a busy road is extremely dangerous and I've had many stressful moments trying to cross safely. Not to mention the horrible condition of the pedestrian sidewalk on the south side with its crumbling surface, flooding, and many blind spots.

Now, more than ever, we need to be investing in accessible, safe communal spaces. Please do the right thing and extend the trail, it is an amazing investment in the health, safety, and overall well-being of our community.
