**Subject:** Victoria schools development meeting: March 30th

Good afternoon,

My name is Michael McCann and my wife's name is Renee McCann

[REDACTED] Dillon Dr.; Ph# [REDACTED]

Being long time Tecumseh resident's since 1992, we are deeply concerned on many fronts.

1. Infrastructure concerns
2. We are situated on Dillon where the ground literally has slumped down causing massive flooding resulting major damages over the years
3. We raised 3 daughters on a very quiet and safe strip of road. This plan will create major chaos and congestion with TOO MANY vehicles coming and going all hours in a day/night... straight into our living room... head lights and all.  
Little River is a main road from Windsor right through to Manning! Dillon is a RESIDENTIAL street with lots of FOOT traffic!!!¶
4. The scope of this project does NOT fit our neighbourhood! Parking GARAGES??? Looks like STORAGE LOCKERS!!!!
5. We definitely say NO to 3 storey buildings! We say LESS # of UNITS especially for the size of property there is. I will refer to Harrow's new subdivision, double the size of property compared to Victoria school property, Harrow is only building 72 Units....(double size property) where Briday wants to build 63 units?

Seriously, Briday is NOT improving our neighbourhood or even considering our best interest! This design does NOT WORK and NOT ACCEPTABLE.

Consider a nice CUL DE SAC behind Dillon.

Regards

Mike and Renee McCann
