Subject: Old Victoria school property

My wife and I are sending you this email to express our concern about the development at the old Victoria School property. Our property backs on to that area and we are very troubled by the thought that it would be zoned anything other than r-1. Anything different will not fit in the neighborhood. And will greatly depreciate all of the homes in the area. Please think of the people that have been living here for decades.

Thank you

John and Michelle Lucas.
