

March 29, 2021

Dear Mrs/Mr,

The “revised” proposal forwarded by the developer, Briday, has not changed in regards with the zoning, density and height of the buildings. It is greatly similar with the previous proposal which created so much animosity and discontent among the neighbouring residents. This proposal will create an overpopulated, high traffic and ugly area in the heart of our neighbourhood.

This neighbourhood is not fit for such overcrowding and rezoning to R3. The R1 zoning is more appropriate and sensible considering our decades old infrastructure. We already have problems with flooding and adding to the infrastructure would not help it. This development must be a R1 zoning.

We lived in this area for 19 years and really enjoy it. Tecumseh is a good place to be. We always had our concerns addressed and taken care of. We realize that the old Victoria School propriety has to be developed but we trust that Tecumseh Town Council will protect our rights of having a voice in it and help us have a thriving, functional and beautiful neighbourhood for the years to come.

Sincerely,

Carmen and Gabriel Accinia.

  
Tecumseh, On
