Subject: Re: 165 Chene

The only comment I wanna state is

I have been here for over 15 years

I have watched Chene Street flood over and over. I want it to be noted due to my hard work and attention, my house has never taken on water.

165 is a low property where the garage and yard floods.

If a new house is built I wanna be assured I will take zero water from the process.

Any water into my yard / house that is a cause from this build will be addressed to the City and this email will be noted.

As for commercial I have lived next to a guy grinding cars on my weekend , over spray to my cars etc.

Vince and his brother are great people and I have no issue with a residential build , provided 185 Chene St, Windsor, ON N8N 1T1 does not take on water or more noise due to a commercial setting.
