New Christmas Displays

- The Committee has placed the order for the holiday lights display for the Tecumseh BIA Parkette. Please see images attached for reference. The town has confirmed that there is sufficient power in the parkette to support the display. The committee is awaiting confirmation from the town for storage details in order to finalize shipping. Further research is ongoing with regards to street lighting and which streetlamps specifically have power outlets. The Committee would like to explore adding holiday lights to the street poles, however, can only do so if the poles have power to support. The Tecumseh BIA Coordinator has reached out to the town regarding this but still has not received a definite answer on which poles can support this. This is ongoing and the Committee hopes to have a concrete answer from the Town soon.
- The Committee looks forward to meeting with the Town later this month to discuss further beautification planning for the spring of 2024.
- Next on the committees plans for future discussion:
 - Tasks for Committee Members to brainstorm/complete:
