Subject: Shuttleworth Drain

Hello Robert, please be informed that base on the report provided for my property in September public meeting. My assessment is bit higher than my next door neighbor. The property size are identical and my property is more closer to the main ditch. Base on the engineer report, I should be assessed either the same as my neighbor or a bit less.

Therefore, I, Emile Nabbout and Wife Narisa asking the court of Revision to review this assessment for my property of _____ and get the calculation corrected at the review of Oct 10, 2023.
