Subject: Mosquito Surveillance Program - Standing Water Complaint Process Survey

Dear Municipal Partners,

The 2023 Mosquito Surveillance Program has ended, please take some time to view comprehensive results on our Mosquito Surveillance Data Dashboard: <https://www.wechu.org/reports/mosquito-surveillance>.

WECHU is continually seeking ways to improve and better our service delivery for our Mosquito Surveillance Program. We would like to understand how each municipality processes standing water complaints. Please visit this link <https://chkmkt.com/standingwater> to complete a short survey by **December 1st, 2023**. Please forward the survey to the designated person for managing standing water complaints in your municipality.

Please feel free to contact me if you have any questions.

Thanks,
Amandeep Hans
