Dear Dr Dikson,

Your Water Fluoridation Basics is the type of documents opponents need to be effective in their local battle. We have produce a short and a long document with the same perspective. I think that it would be great to have such documents: one short so that councillors could have a rapid global view on the fluoridation issue and one longer so that they could have a deeper view of our objections with scientific information. For its credibility, it would be nice if these documents would be signed by professionals with credentials. That is missing in our document.

I am attaching beside your basics our short and long documents, they are in French and I think that some have translated them with Google. I think that we can produce Canadian versions, adapting them to regions if needed, updating it probably and why not in a very short, a short and a long version so they could be used according to the requirements. I will see for French versions but my English is good enough to translate them. The two French versions are posted on the site of the Coalition Eau Secours and a few others in Quebec. We have 42 objections and each of them is a sufficient objection to end fluoridation by itself. It is my contribution.

Gilles

Objet : PLEASE KEEP YOUR WATER SAFE!

Greetings from Calgary, one of Canada's largest fluoride free cities!

I am a family physician, and the founder of Safe Water Calgary ([link below](#)). Contrary to what the press embellished in 2016, our kid's teeth here in Calgary are as good as long fluoridated Edmonton. The lead of the controversial study from February 2016 finally admitted this summer that her data, comparing Grade 2 students in both cities, did not show what the press purported and reported.

The antiquated practice of artificial water fluoridation is not safe, effective nor ethical, and fluoride is not necessary for any body function. If the science on the subject is daunting, you are very qualified to base your decision on the morality and ethics involved. It is highly unethical to mass medicate without control of dose or dosage, without informed consent, and with no follow up or monitoring.

I am very aware of how busy city councillors are, so I ask of you only 2 things:

1. Read my attached short and succinct document WATER FLUORIDATION BASICS. Any 1 of the 15 points should spell an end to this dangerous practice.
2. Go to my Safe Water Calgary website below and, on the home page, click on and watch the powerful 12 minute video FLUORIDE 101 by a prominent Portland dentist. He and his video made a significant contribution to the water fluoridation referendum being defeated soundly, 60-40 %, 6 years ago.

Thanks! If you have any questions or concerns around this polarizing and contentious subject, please contact me.

Dr. Bob

WATER FLUORIDATION BASICS

1. ALL CITIZENS HAVE THE RIGHT TO SAFE, CLEAN, UN-MEDICATED WATER. IT IS A HUMAN RIGHT.
2. IT IS NOT ETHICAL TO FORCE A TOXIC SUBSTANCE ON PEOPLE.
3. WHEN MEDICINE OR TREATMENTS ARE DELIVERED BY WATER, THERE IS NO CONTROL OF DOSAGE, NO MATTER WHAT THE CONCENTRATION, AND THERE IS NO INFORMED CONSENT.
4. BABIES GET A MUCH HIGHER DOSE OF TOXIC FLUORIDE WHEN FORMULA IS MADE FROM FLUORIDATED WATER.
5. THERE ARE BETTER, PROVEN, AND SAFER WAYS TO PROVIDE FLUORIDE FOR THOSE WHO WANT AND BELIEVE IN IT—TOOTHPASTE, RINSES, VARNISHES, AND INEXPENSIVE PRESCRIPTIONS.
6. SWALLOWING FLUORIDE DELIVERS IT TO THE ENTIRE BODY-THE BRAIN AND NEUROLOGICAL SYSTEM, THE THYROID, BONES, KIDNEYS-AND POTENTIALLY CAUSES HARM TO ALL THESE ORGANS AND SYSTEMS.
7. FLUORIDE IS NOT NECESSARY FOR A SINGLE BODY FUNCTION
8. CALCIUM FLUORIDE IN OUR RIVERS IS MUCH DIFFERENT FROM THE TOXIC SUBSTANCE FROM THE WASTE STACKS OF INDUSTRY IN THE USA AND CHINA USED TO FLUORIDATE ALL OF OUR WATER.
9. OVER 97% OF BC, QUEBEC AND EUROPE ARE NOT FLUORIDATED AND ENJOY DENTAL HEALTH AS GOOD OR BETTER THAN FLUORIDATED AREAS.
10. MEDICATING YOUR NEIGHBOURS BY PLEBISCITE IS A POOR WAY TO PRACTICE MEDICINE.
11. SADLY, THE POOR, BABIES, CHILDREN, ELDERLY AND PEOPLE OF COLOUR ARE MOST SUSCEPTIBLE TO SIDE EFFECTS OF FLUORIDATION.
12. OVER 4,000 PROFESSIONALS HAVE SIGNED AN OPEN LETTER AGAINST FLUORIDATION.
13. LESS THAN 6% OF THE WORLD IS FLUORIDATED, AND LESS THAN 30% OF CANADA.
14. FLUOROSIS, OR DAMAGE TO TEETH FROM TOO MUCH FLUORIDE, HAS SKYROCKETED TO 58% AMONG TEENS IN HEAVILY FLOURIDATED USA.
15. CALGARY COULD FOLLOW THE AMAZINGLY EFFECT CHILDSMILE PROGRAM IN SCOTLAND TO MAKE OUR KIDS SO MUCH MORE HEALTHY HEAD TO TOE, NOT JUST THEIR TEETH, BY USING THE MONEY SAVED FROM PUTTING A TOXIC TREATMENT INTO OUR WATER
