**Subject:** Fwd: Fluoride Free Windsor - "Windsor has made a mistake"

Hello to Tecumseh Council...below is an email I have sent to Windsor city council with the link to opinion by a PhD DDS expert. Windsor city councillor's did not read all the information and made an uninformed decision. Hiding behind Corporate law does not excuse an individual of responsibilities...if one wants fluoride so badly in their water...let the individual put it in their own jugs in the fridge. We already have our drinking water piped in from Lake Huron...because the Detroit River is too polluted...

Cathy Greenwell - fed up with Windsor leaders.

311, can you please send this to the integrity commissioner for his records...

An Auditor General would protect the people...
