My name is Heather Dawn Gingerich and I function as a (Very) Special Rapporteur to the United Nations on the issue of ratification of Article 15 (Right to Science and Benefits of Scientific Progress) of the International Covenant on Economic, Social and Cultural Rights (ICESCR) to which Canada is a signatory and is in the process of reconciling with its standards, regulations, codes and laws.

I have been tasked with formally briefing the new Council with regard to the issue of municipal water fluoridation relative to i) mother, child and reproductive health, ii) international law (i.e. International Covenant on Civil & Political Rights, ratified 19 May 1976; Convention on the Elimination of All Forms of Discrimination Against Women, ratified 10 December 1981; Convention Against Torture & Other Cruel or Inhuman or Degrading Treatment or Punishment, ratified 24 June 1984) and iii)

Please also ensure that the elected representatives are provided with a copy of the attached document (particularly, pages 2-9) which was published in 2010 by UNESCO to support informed decision-making by legislators and community leaders in the event that their advisory staff was licensed prior to the inclusion of Human Rights in the professional education curriculum.
