

Hi Jennifer

Thanks for the confirmation.

I will need roughly 4-5 minutes to make my presentation. My presentation will focus on the fact that the decision made by Tec Town Council will impact Windsor because of the nature of the fluoride act. Because of that I want to remind the Mayor and council that equity is a big issue in Windsor and that our community has a much higher rate of child poverty at 1 in 3 kids living below the poverty line. I understand the town of Tecumseh does not have the same issues tied to equity, or not at the same level, but because this decision will impact Windsor I am asking that they consider the equity issue as a major consideration when making their decision.

thank you, I truly appreciate the opportunity to speak on behalf of residents in Windsor.
