Subject: Flouride

Please forgive the tone of this letter, but I feel passionately about this subject.

I cannot attend your meeting on January 29, so please regard this letter as my request NOT TO ADD FLUORIDE TO THE WATER SYSTEM.

I am a Hashimoto's Thyroiditis patient (not that it's anyone's business) and fluoride is harmful to me.

Fluoride is toxic and should not be taken internally, especially for thyroid & kidney patients and many others.

If citizens in this county want to have topical treatments for their teeth, they are free to do so. If you care so much about our dental health, why don't you provide free treatments instead of using our water system to dump this toxic substance. I believe OUR HEALTH IS OUR OWN BUSINESS. It is NOT yours.

People who try to do the right thing by their children and grandchildren grow their own food in home gardens and cook organic foods whenever possible. Why would we go through all that trouble when government can come along and ram fluoride down our throats?

Council should not follow endorsements from other government bodies who are unwilling to take responsibility or liability for any harm done. OUR BODIES should not be DISPOSAL SYSTEMS FOR TOXIC FLUORIDE. How can you think that it is safe for our bodies when the only other legal place to discharge it is a HAZARDOUS WASTE SITE?

Stop the idiocy!

Local government is responsible for supplying safe drinking water to ALL its citizens. THEREFORE, YOU SHOULD TREAT THE WATER, NOT THE CITIZENS. That's why we have doctors. Why would you risk being sued BY IMPERSONATING A DOCTOR?

If you cannot supply us with non-fluoridated water, you must provide those vulnerable, with NON-FLUORIDATED BOTTLED WATER.

PLEASE DO NOT VOTE FOR FLUORIDE!!!
