### Background

The *Safe Water Drinking Act* (SDWA), O. Reg. 170/3, requires every municipality to complete an annual report on the water systems they operate. This report is to be adopted by the local Council and made available to the public.

### Comments

Water Services Division prepared the 2018 annual report for the Water Distribution System for the Town of Tecumseh. See attached.

The format in which the report is prepared and submitted is a requirement of the Ministry of the Environment, Conservation and Parks (MOECP). Four sections must be included within the report:

1. An overview of the required information in accordance with Schedule 22 of O.Reg 170/03 under the SDWA.
2. A list of non-compliance issues.
3. Lead results – End of Period reports.
4. An assessment of the water distribution system's capability regarding flows per cubic meter, monthly flow averages and daily averages.

Upon Council's acceptance of this report, Report No. PWES-2019-06, the Town is legislatively required to notify the public that the report is available for review.

Accordingly, Administration recommends Council adopt the Annual Summary Report for the Tecumseh Distribution System (260004969) for the Year 2018, and request the report be placed on the Town's website for public access.
